As on 31 December 2016

## Market Discipline-Pillar-III Disclosures under Basel-III

## As on 31 December 2016

## **Capital Adequacy under Basel-III:**

Banks operating in Bangladesh are maintaining capital since 1996 on the basis of risk weighted assets in line with the Basel Committee on Banking Supervision (BCBS) capital framework published in 1988. Considering present complexity and diversity in the banking industry and to make the banks' capital requirement more risk sensitive, Bangladesh Bank, being the central bank of the country has decided to adopt the Risk Based Capital Adequacy for banks in line with capital adequacy framework devised by the BCBS popularly known as 'Basel II'. Bangladesh Bank prepared a guideline to be followed by all scheduled banks from January 2009. Both the existing capital requirement rules on the basis of Risk Weighted Assets and revised Risk Based Capital Adequacy Framework for Banks as per Basel II were followed simultaneously initially for one year. For the purpose of statutory compliance during the period of parallel run i.e. 2009, the computation of capital adequacy requirement under existing rules prevailed. On the other hand, revised Risk Based Capital Adequacy Framework as per Basel II had been practiced by the banks during 2009 so that Basel II recommendation could effectively be adopted from 2010. From January 2010, Risk Based Capital Adequacy Framework as per Basel II have been fully practiced by the banks replacing the previous rules under Basel-I. Bangladesh Bank adopted "Guidelines on Risk Based Capital Adequacy (Revised Regulatory Capital Framework for banks in line with Basel III)" as per BRPD circular no. 18 dated 21 December 2014 replaced of "Guidelines on Risk Based Capital Adequacy (Revised Regulatory Capital Framework for banks in line with Basel III)". This circular shall come into force with effect from January 01, 2015. Pubali Bank Limited is maintaining its capital requirements at adequate level as per "Guidelines on Risk Based Capital Adequacy (Revised Regulatory Capital Framework for banks in line with Basel III)"

The guideline is structured around the following three aspects or pillars of Basel-III:

- i. Minimum capital requirements to be maintained by a bank against credit, market and operational risk;
- ii. Supervisory Review i.e., Process for assessing overall capital adequacy in relation to a bank's risk profile and a strategy for maintaining its capital at an adequate level;
- iii. Market Discipline i.e., to make public disclosure of information on the bank's risk profiles, capital adequacy and risk management.

## Disclosure framework of Pubali Bank Limited:

Disclosure includes the following as per Bangladesh Bank guidelines:

- Scope of Application
- Assets under Banking Book and Trading Book
- Credit risk
- Equity disclosure for Banking Book positions
- Interest rate risk in Banking Book(IRRBB)
- Market risk
- Operational risk
- Leverage Ratio
- Liquidity Ratio
- Remuneration

## **Disclosure under Pillar III**:

Disclosure given below as specified by RBCA Guideline :

## A) Scope of Application

## Qualitative Disclosure

(a)	The name of the top corporate entity in the group to which this guidelines applies.	Pubali Bank Limited
(b)	An outline of differences in the basis of consolidation for accounting and regulatory purposes, with a brief description of the entities within the group (a)	The consolidated financial statements of the Bank include the financial statements of (a) Pubali Bank Limited (b) Pubali Bank Securities Limited. A brief description of these are given below:
	that are fully consolidated; (b) that	Pubali Bank limited
	are given a deduction treatment; and (c) that are neither consolidated nor deducted (e.g. where the investment is risk weighted)	Pubali Bank limited (the Bank) was incorporated in the year 1959 under the name and style of Eastern Mercantile Bank Limited under Companies Act 1913. After the country's liberation in 1971, the Bank was nationalized as per policy of the Government of Bangladesh under the Bangladesh Bank (Nationalisation) Order 1972 (PO No. 26 of 1972) and was renamed as Pubali Bank. Subsequently, the Bank was denationalized in the year 1983 and was again incorporated in Bangladesh under the name and style of Pubali Bank Limited in that year. The government transferred the entire undertaking of Pubali Bank to Pubali Bank Limited, which took over the same as a going concern.
		Pubali Bank Securities Limited
		Pubali Bank Securities Limited (PBSL) was incorporated on the 21 <sup>st</sup> June 2010 under the Companies Act, 1994 as a public limited company. It is a subsidiary company of Pubali Bank Limited holds all the shares of the company except for thirteen shares being held by thirteen individuals. The company has been established as per Securities & Exchange Commission's (SEC) Letter # SEC/Reg/DSE/MB/2009/444/dated 20.12.2009. The Registered Office of the company is situated at A-A Bhaban (7 <sup>th</sup> floor), 23 Motijheel C/A, Dhaka-1000, Bangladesh. The company has started its commercial activities from 01 February 2011.
		The main objects of the company is to carry on the business of a stock broker and stock dealer house and to buy, sell, and deal in, shares, stocks, debentures, bonds and other securities and to carry on any business as is permissible for a broker and dealer house duly licensed by the Securities & Exchange Commission of Bangladesh.
(c)	Any restrictions, or other major impediments, on transfer of funds or regulatory capital within the	Not applicable

#### **Quantitative Disclosure**

(a) The aggregate amount of capital deficiencies in all subsidiaries not included in the consolidation that are deducted and the name(s) of such subsidiaries.

Not applicable

## D) Credit Risk:

#### **Qualitative Disclosure:**

(a) The general qualitative disclosure requirement with respect to credit risk, including:

Bank classifies loans and advances (loans and bill discount in the nature of an advance) into performing and non-performing loans (NPL) in accordance with the Bangladesh Bank guidelines in this respect.

An NPA is defined as a loan or an advance where interest and / or installment of principal remain overdue for more than 90 days inrespect of a Continuous credit, Demand loan or a Term Loan etc.

Classified loan is categorized under following 03 (three) categories:

- > Sub- Standard
- Doubtful
- ➤ Bad & Loss

### Any continuous loan will be classified as:

- Sub-standard' if it is past due/overdue for 3 months or beyond but less than 6 months.
- > "Doubtful' if it is past due/overdue for 6 months or beyond but less than 9 months.
- > 'Bad/Loss' if it is past due/overdue for 9 months or beyond.

#### Any demand Loan will be classified as:

- Sub-standard' if it remains past due/overdue for 3 months or beyond but not over 6 months from the date of claim by the bank or from the date of creation of forced loan.
- ➤ Doubtful' if it remains past due/overdue for 6 months or beyond but not over 9 months from the date of claim by the bank or from the date of creation of forced loan.
- ➤ Bad/Loss' if it remains past due/overdue for 9 months or beyond from the date of claim by the bank or from the date of creation of forced loan.

In case of any installment(s) or part of installment(s) of a Fixed Term Loan is not repaid within the due date, the amount of unpaid installment(s) will be termed as `past due or overdue installment'.

### i. In case of Fixed Term Loans amounting up-to Tk 10.00 lacs:

- If the amount of 'past due installment' is equal to or more than the amount of installment(s) due within 6 (six) months, the entire loan will be classified as "Sub-standard".
- If the amount of past due installment' is equal to or more than the amount of installment(s) due within 9 (nine) months, the entire loan will be classified as "Doubtful".
- ➤ If the amount of past due installment is equal to or more than the amount of installment(s) due within 12 (twelve) months, the entire loan will be classified as "Bad/Loss".

### ii. In case of Fixed Term Loans amounting more than Tk. 10.00 lacs :

- If the amount of past due installment' is equal to or more than the amount of installment(s) due within 3 (three) months, the entire loan will be classified as "Sub-standard".
- ➤ If the amount of past due installment' is equal to or more than the amount of installment(s) due within 6 (six) months, the entire loan will be classified as "Doubtful".
- If the amount of past due installment' is equal to or more than the amount of installment(s) due within 9 (nine) months, the entire loan will be classified as "Bad/Loss".

\* Definitions of past due and impaired (for accounting purposes)

 Discussion of the Bank's credit risk management policy

The Board approves the credit policy keeping in view relevant Bangladesh Bank guide lines to ensure best practice in credit risk management and maintain quality of assets. Authorities are properly delegated in ensuring check and balance in credit operation at every stage i.e. screening, assessing risk, identification, management and mitigation of credit risk as well as monitoring, supervision and recovery of loans with provision for early warning system. There is a separate Credit Risk Management Division for ensuring proper risk management of Loans and Credit Monitoring and Recovery Division for monitoring and recovery of irregular loans. Adequate provision is maintained against classified loans as per Bangladesh Bank Guidelines. Status of loans are regularly reported to the Board/Board Audit Committee. Besides, Credit risk management process involves focused on monitoring of Top- 30 Loans, Top-20 Defaulters, Sectoral exposures viz-a-viz among others limit.

## **E)** Equities: Disclosures for Banking Book Positions

## **Qualitative Disclosure**

(a) The general qualitative disclosure requirement with respect to the equity risk, including:

\*differentiation between holdings on which capital gains are expected and those taken under other objectives including for relationship and strategic reasons; and

\*discussion of important policies covering the valuation and accounting of equity holdings in the banking book. This includes the accounting techniques and valuation methodologies used, including key assumptions and practices affecting valuation as well as significant changes in these practices.

Investment in equity mainly for capital gain purpose but Bank has some investment for relationship and strategic reasons.

Quoted shares are valued at cost. Necessary provision is maintained if market price fall below the cost price. Unquoted shares are valued at cost.

#### **Quantitative Disclosure**

(a)	Value disclosed in the balance sheet of investment, as well as the fair value of those investments; for quoted securities, a comparison to publicly quoted share values where the share price is materially different from fair value.	Cost price of quoted share BDT 4,501,467,226 & Market value of quoted share BDT 4,969,257,026
(b)	The cumulative realized gains(losses) arising from shares and liquidations in the reporting period.	BDT (6,395,869)
(c)	* Total unrealized gains (losses) – quoted shares	BDT 467,789,800
	*Any amounts of the above included in Tier 2 capital	BDT Nil
(d)	Capital requirements broken down by appropriate equity grouping, consistent with the bank's methodology, as well as the aggregate amounts and the type of equity investments subject to any supervisory provisions regarding regulatory capital requirements.	Nil

## F) Interest rate risk in the banking book (IRRBB):

#### **Qualitative Disclosure:**

(a) The general qualitative disclosure requirement including the nature of IRRBB and key assumptions, including assumptions regarding loan prepayments and behavior of nonmaturity deposits, and frequency of IRRBB measurement.

Interest rate risk is the potential that the value of the On Balance Sheet and the Off Balance Sheet position of the Bank would be negatively effected with the change in the Interest rate. The vulnerability of an institution towards the advance movement of the interest rate can be gauged by using Duration GAP under Stress Testing Analysis. Pubali Bank Limited has also been exercising the Stress Testing using the Duration GAP for measuring the Interest Rate Risk on its On Balance Sheet exposure for estimating the impact of the net change in the market value of equity on the Capital to Risk weighted Asset Ratio (CRAR) due to change in interest rates only on its On Balance Sheet position (as the Bank holds no interest bearing Off Balance Sheet positions and or Derivatives). Under the assumption of three different interest rate changes i.e. 1%, 2% and 3%.

## G) Market Risk:

## **Qualitative Disclosure:**

(a)	Views of BOD on trading / investment activities	The Board approves all policies related to market risk, sets limits and reviews compliance on a regular basis. The
		objective is to provide cost effective funding last year to
		finance asset growth and trade related transaction.
(b)	Methods used to measure Market	Standardized approach has been used to measure the market
	risk	risk. The total capital requirement in respect of market risk is
		the aggregate capital requirement calculated for each of the
		risk sub-categories. For each risk category minimum capital
		requirement is measured in terms of two separately calculated
		capital charges for 'specific risk' and 'general market risk'.
(c)	Market risk Management system	The Treasury Division manage market risk covering liquidity,
		Interest rate and foreign exchange risks with oversight from
		Asset-Liability management Committee (ALCO) comprising
		senior executives of the Bank. ALCO is chaired by the
		Managing Director. ALCO meets at least once in a month.
(d)	Policies and process for	There are approved limits for Market risk related instruments
	mitigating market risk	both on-balance sheet and off-balance sheet items. The limits
		are monitored and enforced on a regular basis to protect
		against market risks. The exchange rate committee of the
		Bank meets on a daily basis to review the prevailing market
		condition, exchange rate, forex position and transactions to
		mitigate foreign exchange risks.

## H) Operational Risk

## **Qualitative Disclosure**

Views of BOD on system to reduce Operational Risk	The policy for operational risks including internal control & compliance risk is approved by the board taking into account relevant guidelines of Bangladesh bank. Audit committee of the Board
	oversees the activities of Audit & Inspection Division, Monitoring Division and Compliance Division under Internal Control & Compliance Wing to protect against all operational risks.
Performance gap of executives and staffs	Pubali Bank Limited has a policy to provide competitive package and best working environment to attract and retain the most talented people available in the industry. The Bank's strong brand image plays an important role in employee motivation. As a result, there is no significant performance gap.
> Potential external events	No potential external events is expected to expose the Bank to significant operational risk.

<ul> <li>Policies and processes for mitigating operational risk</li> </ul>	The policy for operational risks including internal control & compliance risk is approved by the Board taking into account relevant guidelines of Bangladesh Bank. Policy guidelines on Risk Based Internal Audit system is in operation as branches are rated according to their risk status and branches having more risk score are subjected to more frequent audit by Audit & Inspection Division. It is the policy of the bank to put all the branches of the bank under any form of audit at least once in a year. Head of ICC Wing reports to Managing Director and Audit Committee of the Board.
Approach for calculating capital charge operational risk	for Basic Indicator Approach is used for calculating capital charge for operational risk as of the reporting date.

## I) Liquidity Ratio:

## **Qualitative Disclosure:**

Views of BOD on system to reduce Liquidity Risk:	Liquidity risk is faced by a bank when it is unable to meet its financial obligations when they fall due. Liquidity risk can arise due to market liquidity or funding liquidity. Report on liquidity risk management is regularly submitted to the Risk Management Committee of the Board and they oversee the liquidity position and suggest corrective action to ensure better liquidity position of the Bank.
➤ Methods used to measure Liquidity Risk :	Various liquidity measurement tools like Loan Deposit (LD) Ratio, Liquid Assets to Total Deposit Ratio, Liquid Assets to Total Assets Ratio, Snap Liquidity Ratio, Maximum Cumulative Outflow (MCO), Liquidity Coverage Ratio (LCR), Net Stable Funding Ratio (NSFR), Structural Liquidity Profile etc. are used to measure liquidity risk.
➤ Liquidity Risk management system :	To manage the liquidity risk, ALCO regularly monitors various ratios & parameters and find out the risk related issues and also instructs the concern department or section to take corrective measures.

Policies and processes for mitigating Liquidity Risk: To manage liquidity risk Pubali Bank Limited maintains diversified and stable funding base. Policies and process which incorporated in ALM manual are used for mitigating liquidity risk. ALCO meets periodically to review different aspects of the bank's portfolio with special emphasis on deposits and liquidity position and determines the direction to be taken by the bank. Parameters set by Bangladesh Bank specially in regards to CRR, SLR & LD ratio strictly maintained. A balanced mix of short and long terms deposits to counter maturity gaps is maintained. Annual budget is also formulated with a balance between growth in assets and liabilities.
